

1 to 32 port optical splitter

PLC Splitter is based on planar lightwave circuit technology. Fiber-Mart 1x32 Fiber PLC Splitter can distribute or combine 1 optical signal into 32 outputs fibers.

Designed with performance in mind, the highly dense WaveSmart Optical Staging Plate allows for quick install and removal of splitter legs using adapters that support quick "Red Light" port testing or ...

These splitters are encased in a metal box, offering easy installation in fiber optic applications and extensively used in Fiber To The Home (FTTH) networks, adhering to PON standards like GPON ...

A **1x32 splitter** is a type of optical power splitter that takes one input optical signal and evenly distributes it across 32 output fibers. It belongs to the family of planar lightwave circuit (PLC) ...

Welcome to buy our high quality products or wholesale our customized 1x32 fiber optic plc splitter abs module 2.0mm in stock with our factory. Also, free sample is also available if necessary.

1 X 32 Splitter Module designed to fit Fiber Frames. SC APC connectors. 1.2 m (3.94 ft.) inputs and outputs with 2 mm jumper jacket.

This PLC Splitter is a 1x32, with 1 input and 32 output fibers with an even split ratio across all fibers regardless of input wavelength. PLC Splitters are available with 900µm loose tube singlemode fiber ...

Enables passive optical network (PON) design with existing LANscape Solutions housings providing a truly compatible and reliable solution.

The 1x32 Singlemode Bare Fiber PLC Splitter is an optical splitter designed for single-mode fiber systems that divides an incoming optical signal into 32 separate outputs. With 1 input port and 32 ...

The standard 19 inches (1U) rack unit to contain a 1x32 ABS Box type PLC fiber optic splitter, it can be used for both indoor and outdoor applications in FTTx projects. The rack mount PLC splitter ...

The standard 19 inches (1U) rack unit to contain a 1x32 ABS Box type PLC fiber ...

1 to 32 port optical splitter
