

12-splitter OTDR

The in-service OTDR was designed specifically for testing live fiber networks. This dedicated device uses an out-of band wavelength (test wavelength far away from traffic wavelength) to enable OTDR ...

Testing a splitter or other passive fiber optic devices like switches is little different from testing a patchcord or cable plant using the two industry standard tests, OFSTP-14 for double-ended loss ...

The FTBx-730D OTDR is optimized to test through optical splitters and characterize FTTH links. Field technicians can characterize and troubleshoot links 132 km point-to-point (P2P) thanks to its dynamic ...

High-resolution OTDR powered with 42 dB of dynamic range for metro network testing up to 150 km and up to 1x128 splitter characterization in PON FTTx applications.

The MaxTester 730C (MAX-730C) is designed for testing through FTTH/PON splitters for end-to-end characterization. This handheld OTDR is ideal for FTTH/PON testing, live fibre troubleshooting and ...

The MaxTester 730C (MAX-730C) is designed for testing through FTTH/PON ...

The MaxTester 730C (MAX-730C) is designed for testing through FTTH/PON splitters for end-to-end characterization. This handheld OTDR is ideal for FTTH/PON testing, live fiber troubleshooting and ...

Versatile OTDR with customizable dynamic ranges, wavelength options, online light alarm, and remote control for efficient fiber network testing.

Fully featured, entry-level, dedicated OTDR with tablet-inspired design, suitable for metro and optimized to test through optical splitters, for seamless end-to-end FTTH characterization and troubleshooting.

AFL's FlexScan FS200 OTDR is an all-in-one solution for detecting, identifying, locating, and resolving single-mode optical network issues. It is designed for both novice and expert technicians working in ...

This handheld OTDR is ideal for FTTH/PON testing, live fiber troubleshooting, and metro range testing. Find more problems closer to the splitter than other OTDRs thanks to the highest resolution for PON ...
