

14-channel fiber optic

Shop DigiKey's large in-stock selection of Fiber Optic Cables. View inventory, pricing and order now for same day shipping!

Cost-effective multichannel cables and reel assemblies are designed for multiple deployments for outside production using tactical fiber optic cable and Senko connectors.

From indoor to indoor/outdoor to outside plant cables, we offer a wide range of fiber optic cables that are easy to install and provide high-density connectivity.

It consists of a battery-supplied transmitter and a battery-supplied receiver connected to each other with an optical fiber. It can also be used to transmit analog signals over long distances or to handle ...

The LTX-5510 Signal Transports enables the precise conveyance of one analog channel plus up to four digital channels of information over fiber optic links ranging from meters to more than 10 kilometers.

Using fiber optic technology, it converts electrical signals from switches or routers into optical signals, transmitted as pulses of light, enabling high-speed data transfer over long distances. ...

The LTX-5510 Signal Transports enables the precise conveyance of one analog ...

Samtec's 14 Gbps FireFly(TM) FMC(TM) Module provides up to 140 Gbps full-duplex bandwidth over 10 channels from an FPGA to an industry-standard multi-mode fiber optic cable. The FireFly(TM) optical ...

The LTX7225 and LTX7215 are available in SM configurations only. 850 nm models transmit over multi-mode fiber optic links of up to 820' (250 m) in length, while the SM versions transmit at 1310 nm over ...

Mouser offers inventory, pricing, & datasheets for Ethernet, Fibre Channel Multimode Fiber Optic Transmitters, Receivers, Transceivers.

The LYNX Technik Yellobrik OTT 1414 is a compact 4-channel SDI-to-fiber transmitter designed to optimize the distribution of uncompressed, broadcast-quality video signals over long distances.
