

## 36-core miniature optical fiber splice closure

Explore reliable optical fiber splice closures for network deployment. Our closures prioritize reliability, installability, and flexibility.

\*The closure is of small volume, big capacity and convenient maintenance. The elastic rubber seal rings inside the closure are of good sealing and sweat-proof performance.

These sealed canister closures are available in configurations that can accommodate from 72 to 576 single fiber splices, or from a 288- to 1296-fiber capacity if splicing ribbons.

The product comes with one pre-installed 36-fiber splice tray and supports up to 4 trays, enabling a maximum splice capacity of 144 fibers. It features 1 oval port and 4 round ports compatible with loose ...

Tailored to fit the diverse needs of FTTH and FTTB configurations, this equipment excels in providing a secure, sealed environment for fiber optic connector heads and splices.

With this 36 Core 2 in 2 out fiber optic closure, you can deploy it in almost every network requirement. But that's not all! You are also sure of good performance if the installation is right. You can use this ...

We can provide Horizontal type fiber optic splice closure from 6 cores up to 288 cores for fiber optic cables connection use for aerial, underground, pipeline, hand-holes in Telecom project.

These sealed canister closures are available in configurations that can ...

Description Fiber Optic Splice Closure is a fiber management product typically used with outdoor fiber optical cables. We supply Dome type and In-line type splice closure.

We can provide Horizontal type fiber optic splice closure from 6 cores up to 288 cores for fiber optic cables connection use for aerial, underground, pipeline, hand ...

Discover 36 optical fiber closures for FTTH networks--waterproof, CE certified, with 2 in 2 out ports and light optical fiber compatibility.

36 Core Optic Splice Joint Closure Horizontal Types 2 in 2 out F004 are used to distribute, splice, and store the outdoor optical cables which enter and exit from the ends of the closure.
