

88s Optical Cable Fusion Splicer Dimensions

Brand Fujikura Dimensions 170 x 173 x 150 mm Model Name/Number 88S+ Fiber Alignment Method Active Core Alignment Sleeve Length 66 mm (Max.) Sleeve Diameter 6.0 mm (Max.)

Discover the Fujikura 88S+ 90S SM MM Core Alignment Fusion Splicer with CT-50, on Sale Warranty Calibration Backed by The Best Service and Lowest Prices in the Industry in Australia

Fujikura 88S the advanced core alignment Fusion Splicer is designed to keep you going. The 5 inch touchscreen display makes it more user friendly. The new design streamlines the steps required to ...

This capability allows automatic cleaver blade rotation when the splicer judges the blade is worn. Also, the 88S fusion splicer can connect to two CT50s simultaneously.

It supports single fiber splicing with a typical splice time of 7 seconds and offers wireless communication for automatic cleaver blade rotation. The device includes a robust battery capable of 300 splice and ...

Dimensions of measurement: 170W x 173D x 150H mm Advanced Image processing technology. Fiber discrimination function. Electrode life: 5000 splices. Active blade management technology. The ...

Specification Active core alignment Single fiber SMF(G.652/657), MMF(G.651), DSF(G.653), NZDSF(G.655) (1) Core alignment fusion splicer *2 (2) Battery pack (3) AC adapter (4) AC power cord

Detailed technical specifications for the Eujgoov A-88S Fiber Optic Fusion Splicer. Image 9.1: Physical dimensions of the A-88S splicer: 160mm (6.3in) length, 140mm (5.5in) width, 145mm (5.7in) height.

The 88S+ analyzes the condition of both L and R cleave end faces and performs optimal fusion control. This new technology improves splice loss significantly and reduces the risk of re-installation.

The latest 88S+ single-core fiber fusion splicer is based on the 88S and is equipped with two innovative technologies: intelligent blade management technology and intelligent splicing control technology. ...
