

Acacia Optical Module Company

Acacia has already established significant momentum in client optics, having shipped more than one million 100G-per-lane optical engines in the past year, demonstrating their capability ...

Acacia is widely recognized as a pioneer of silicon-based PICs for coherent optical communications--the highly integrated Silicon Photonics single-chip PICs are low power and ultra ...

Acacia is an acquired company based in Maynard (United States), founded in 2009. It operates as a Provider of high-speed coherent optical interconnect products. Acacia has raised ...

Behind Acacia's commitment is a team of industry leaders with a broad range of experience in optical systems, networking, silicon photonics and coherent algorithm development helping our customers ...

Acacia designs, manufactures, and sells a complete portfolio of high-speed optical interconnect technologies addressing a range of applications across datacenter, metro, regional, long-haul, and ...

Acacia has expanded its client optics components portfolio with the introduction of a 3nm Kibo 1.6T PAM4 DSP and a family of 200G per lane Optical Engine products.

That is why today we are announcing the expansion of our client optics components portfolio with new products that leverage the proven Digital Signal Processing (DSP) and silicon ...

Acacia Communications is a company that provides silicon-based optical interconnect products. It develops, manufactures, and sells embedded modules, pluggable modules, and semiconductors.

Acacia Communications (NASDAQ: ACIA) has unveiled a line of 400-Gbps coherent optical modules. Leveraging the company's Greylock 7-nm DSP, the line includes modules for 400ZR, Open ZR+, and...

Acacia Communications Inc of Maynard, MA, USA (now part of Cisco) -- which develops and manufactures high-speed coherent optical interconnect products -- has expanded its client ...

Acacia is an acquired company based in Maynard (United States), founded in ...
