

Brazilian fiber optic grating manufacturer

AtGrating is a professional company for optical fiber sensing. AtGrating offers industrial solutions by providing customized sensors and sensing instruments that add value, reduce uncertainty, and ...

We specialize in custom fabrication of fiber optical gratings (FBG) across wavelengths from 400 nm to 2000 nm, tailored to precise customer specifications.

The FBG gratings can be used in different applications, such as laser chirp and dispersion management, fiber optic sensing, fiber laser resonators, power spectrum shaping, wavelength selective reflectors, ...

Optical Gratings are optical components that consist of a periodic structure of parallel slits or grooves etched or ruled onto a substrate material. The leading manufacturers of Gratings are listed below. ...

Discover all relevant Fiber Optic Cable Manufacturing Companies in Brazil, including FiberHome do Brasil and Cabletech

Using our advanced FBG writing technologies with holographic phase mask and ebeam phase mask, we are able to write many different types of fiber Bragg grating such as the following listed products.

This section provides an overview for fiber bragg gratings as well as their applications and principles. Also, please take a look at the list of 9 fiber bragg grating manufacturers and their company rankings.

Our unwavering dedication lies in crafting state-of-the-art tunable fiber optic devices and systems with diverse applications. Our patented fiber grating tuning technology offers a versatile "all-fiber" filter ...

Our mission is to develop, manufacture and market the highest quality Fiber Bragg Grating (FBG) based products that meet or exceed customer requirements and fulfill the specific ...

Designs, manufactures, and markets high reliability active and passive optical components and modules for space, telecom, industrial, medical, and R& D applications. Develops high-power fused ...
