

## Bulk purchase of PAM4 transimpedance amplifiers

The GN1814 is the latest generation of 56GBd, quad, linear, transimpedance amplifier (TIA) with 500um channel pitch. It is designed for 400Gbps Ethernet operation using PAM4 modulation and optimized ...

minisilicon provides a variety of transimpedance amplifier (TIA) chip products, which use SiGe technology. It can realize wide-band low-noise preamplification of PIN or APD photodetector current ...

Shop DigiKey's large in-stock selection of Instrumentation, Op Amps, Buffer Amps. View inventory, pricing and order now for same day shipping!

Engineering samples are shipping in 25-piece waffle packs. Building on decades of deployment in Coherent optical transceivers, this TIA is backed by proven design reliability and ...

The MxL9168 is an eight-channel linear 56GBd PAM4 transimpedance amplifier (TIA) array with I2C control and monitor ports. Each amplifier channel includes an adjustable small signal ...

Marvell's transimpedance amplifier (TIA) portfolio powers PAM4 and Coherent-based pluggable optical modules for high-speed cloud AI connectivity and long-haul optical links from 100G to 1.6T, and beyond.

Mouser is an authorized distributor for transimpedance amplifier manufacturers including Analog Devices, Texas Instruments & more. Please view our selection of transimpedance amplifiers below.

It is based on PAM4 modulation for next-generation Datacom applications. The HXR14450 integrates a linear trans-impedance pre-amplifier, linear post-amplifier, CDR unit, and a versatile output stage in ...

It is based on PAM4 modulation for next-generation Datacom applications. The HXR14450 integrates a linear transimpedance pre-amplifier, linear post-amplifier, CDR unit, and a versatile output stage in ...

The MATA-38834 is an octal channel 26/56GBaud linear PAM4 TIA with automatic gain.
