

Bus Connector Strip

Our portfolio includes a variety of screw terminal blocks, stud terminal blocks, and barrier strip terminal blocks, as well as busbars with screw terminals or stud terminals.

Terminal Strips Use as a common negative/neutral bus for AC or DC systems. Dual terminal strips in 4 or 8 screw positions on 3/4" centers are secured to a high density insulated base. All hardware, bus ...

To be used as a ground strip, all terminals on one side would need to be pigtailed together. Customers commend the product for its quality and practicality in streamlining wiring tasks, especially in vehicle ...

These bars are tin-plated copper and have stainless steel terminals. Also known as bus bars, they serve as connection points between wires with ring or spade terminals. The underside is sealed, so the ...

Bus bars and terminal strips for AC and DC use on boats and RV's. All marine grade, tinned, corrosion resistant, covers available.

To be used as a ground strip, all terminals on one side would need to be pigtailed ...

Choose from our selection of terminal strips, including terminal blocks, short-resistant terminal blocks, and more. Same and Next Day Delivery.

They can be configured as PCB-mounted busbar connectors. These connectors are ideal for high-current busbar power supply/distribution ...

They can be configured as PCB-mounted busbar connectors. These connectors are ideal for high-current busbar power supply/distribution applications, hyper-scale computing architectures, ...

Shop terminal blocks, barrier strips, and DC bus bars including mini and high amp PowerBar and MaxiBus models, plus 4 to 20 circuit blocks with covers for tidy marine, vehicle, RV, and bench wiring.

Explore durable bus bar terminal blocks with screw and stud terminals. Perfect for organizing electrical circuits safely and efficiently.

Use our intuitive filtering tools to quickly find the right bus bar connector by current rating, material, and mounting style. If you need assistance, please contact our technical experts.
