

Tool holders designed for ceramic inserts differ significantly from those designed for carbide and Greenleaf tools for ceramic inserts may differ from those produced by another manufacturer.

Special ceramic additives restrict crystal growth, resulting in an exceptionally fine-grained, smooth-surfaced guide with outstanding wear properties. Colour: pink or white.

Ceramic bushings, rollers, and wire guides are important components in high-performance manufacturing environments. Their hardness, chemical resistance, and thermal stability make them ...

The technology behind ceramic inserts offer more benefits than just decreasing wear from abrasive lines, it also reduces the amount of friction and ...

In this insightful guide, we will delve into the properties and benefits of ceramic as a material for bezel inserts, present various styles and colors available, and provide expert guidance ...

These images show only an overview about our capabilities to guide wire, cable, rope and yarn. We also supply suitable ceramic replacement parts for your machines made by Niehoff, B&#252;hler, Lesmo, ...

[Insert Flanges for Standard \(Single\) Piping Systems Complete \(Color PDF\)](#) (Click below to download the above sections in one black and white PDF document ideal for faxing)

[Ceramic Negative Inserts \(With Hole/Without Hole\)](#) [Ceramic Positive Inserts \(Without Hole\)](#) [Ceramic SG \(SumiNotch\)](#) and [Ceramic LNGX Precautions when Using Wiper Inserts](#)

These inserts are made with a black alumina ceramic on the cutting edges. Compared to carbide inserts, ceramic lasts longer in hardened-steel and cast iron tooling applications because it is chemically inert ...

Choosing the appropriate cutting tool for your machining application is the difference between increased productivity and costly inefficiency. Selecting the most suitable insert from among thousands of ...

The links below lead to our Ascending order lists, with the first column of each showing the dimension either D, B or C, to make it easy for you to locate the desired eyelet guide.

The plastic retention inserts come in various colors, each corresponding to a level of strength. The standard male inserts offer 10 degrees of angle correction and up to ...

# Ceramic Flanged Insert Color Comparison Guide

Many are common guide shapes that do not fit the other series descriptions. Call 1-800-992-2402 to speak directly with our sales representatives for custom parts or fill our 75 Series Custom Parts RFQ ...
