

Check the status of fiber optic ports on the switch

Learn how to monitor SFP optical power on Cisco switches, interpret Tx/Rx levels, and troubleshoot fiber link issues. Step-by-step CLI commands, model-specific guidance, and best practices included.

Learn how to check SFP module health on Cisco switches. This guide covers essential CLI commands (show inventory, DOM), fixes for "unsupported ...

We will introduce how to query the information of optical module on Cisco switch. First, we need to connect to the network, and then log on to the management platform of Cisco switch.

Click on the Ports tab located in the top panel. Click on an operational SFP fiber optic port on the switch visual panel at the top. Scroll down to the Status section below. You will find the DOM metrics ...

This CLI command, "show fiber-ports optics-eprom," allows you to check the SFP's EEPROM information, including the vendor_name, serial number, date code, and part number.

When optical modules operate on a switch, it is usually necessary to read the module's internal information to understand its working status--such as connection status and real-time ...

An important factor is to make sure that Cisco-compatible transceivers are fully compatible with your Cisco switch. ... This can be done by searching the Cisco switch hardware ...

This article provides instructions on how to view the Optical Module Status on your switch through the Command Line Interface (CLI).

Use the "show interface" command on the switch's command line interface (CLI) to display the status and statistics of the fiber ports. This command will provide information about the interface, including ...

Learn how to check SFP module health on Cisco switches. This guide covers essential CLI commands (show inventory, DOM), fixes for "unsupported transceiver" errors, and interpreting optical power levels.

By checking module health, compatibility, and digital diagnostics, you can quickly confirm correct installation, detect optical problems, and maintain accurate hardware inventory.
