

# Compatible Silicon Photonics Circuit Terminals UK Supplier

Listing all the companies, universities and research organisations that make up the UK photonics and quantum industries.

Detachable fibre-to-chip interconnects for CPO hardware engineering teams. No micro-optics. No active alignment. Engineered for scale.

Specialists in photonics assembly and packaging for quantum, sensing, and telecom innovations. From prototype to production, precision you can trust.

This photonic integrated circuits buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

We are experts in the design, modelling, characterisation and validation of photonics devices, from laser emitters to photonic integrated circuits and quantum hardware.

We are an open source, license free Silicon Photonics rapid prototyping foundry based in the UK.

All of our platforms are supported by an open source process design kit (PDK), which is available to download in GDSII format via our website or is accessible via Lucedo Photonics' IPKISS software.

Photonic Solutions is an independent supplier of photonics and associated technologies to the UK scientific and industrial market.

UK Design house and fabless manufacturer of photonic components. We bring value to our customers through high quality products at competitive prices. In-house expertise for custom photodetectors ...

Search for and compare optical components from manufacturers around the world, or for custom jobs we'll match you with an industry expert service provider.
