

Customization Process for Low-Temperature Resistant Automotive Fiber Optic MTP Connectors

Our production is designed for both standardized and highly complex OEM assemblies, covering everything from single fibers to customized multi-fiber cables, from prototype to high-volume production.

The state-of-the-art MTP[®]; PRO X and MTP[®]; PRO connectors bring simplified use to the MPO format by offering optimal field flexibility and enhanced performance while leveraging proven features and ...

Our MTP-LC fiber optic cables are assembled in the USA, and are individually tested to make sure you receive the highest possible quality, and the results of each test are included with the product.

These new MTP connectors make it easy to change gender and polarity in the field, without requiring a specialized skill set or a connector engineer. Along with optimized field configurability, the connectors ...

With deep expertise in fiber cable structures, connector types, and optical performance, we guide you in selecting the ideal configuration for your network or product line.

Fibertronics, Inc. is an SBA certified woman-owned small business providing USA manufactured customized fiber optic and low voltage cable assemblies, and products for distribution.

Craft custom MPO connection solutions--connector types, cable selection, wiring paths, and cabinet/patch-panel layouts--based on your evaluation. We prepare materials, perform factory pre ...

MPO/MTP[®]; connectors with MT ferrules enable high-speed, high-density fiber networks. Learn about their features, standards, and cable assembly best practices.

All Pre-Terminated MTP Trunk Cable Assemblies will be custom made at the time of your order, built to your specifications utilizing Corning[®]; optic fiber and genuine US Conec branded MTP[®]; connectors.

Discover how FS end-to-end process, from in-depth consultation and precision design to rigorous validation, and then delivers tailored MTP[®];, standard, armored, and industrial fiber jumpers ...
