

# Customized Arc Bends for New Zealand Cable Trays

Mechanical Support Systems supplies a versatile range of light to medium duty cable trays designed for fast installation and flexible routing across commercial and institutional environments.

Steel & Tube offer a full range of cable trays and cable ladders suitable for all cable containment, and additionally can provide full take-offs from plans through to a complete quotation.

The Ladder Tray features light, rugged, tubular steel construction. It is designed for mechanical support and strain relief in long runs of cable and creates a smooth gradual bend for cable. Rail and stringer ...

Independently verified to comply with AS/NZS 61386, the Marley ARMA® rigid conduit system is proudly made in New Zealand and 100% recyclable.

We construct and supply both solid and ventilated trays with pre-assembled fittings with pre-drilled straight sections. This allows faster installation and uninterrupted daily operation onsite.

Iplex's electrical duct systems include a comprehensive range of bends, connectors, tees and junctions providing customers with a total solution from one single reputable source.

Shop online, or at one of our New Zealand-wide stores today.

Available in a range of cable laying depths and widths, we will have a solution that works for your project. Stocked in a range of Pre-Galv and Hot Dip Galv finishes, FDG Cable Support Products can ...

Need help selecting the right cable ladder or -tray for your project? We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation.
