

Energy-saving single-fiber bidirectional original genuine product

This Cisco GLC-BX40-DA-I 1000BASE-BX40-D (Alternative) for 40km Single-Fiber Bidirectional Applications; with DOM is in brand new condition and contains all original packaging and ...

SFP transceiver that supports 1G connections up to 3 km using single-mode fiber with a simplex LC UPC connector.

They enable 10 Gbps optical data transfer over a single duplex fiber core, reaching up to 20 km--perfect for enterprise networks, metropolitan and regional links.

Single-mode, simplex, fiber transceiver module. The 1 Gbps Bidirectional Single-mode Optical Module is a simplex transceiver that delivers up to 1.25 Gbps speed over distances up to 3 kilometers.

Bidirectional transceivers transmit and receive optical signals through a single fiber, saving optical fiber resources. This is useful where fiber resources are scarce and reduces the cost of cabling ...

1000BASE-BX10-D and 1000BASE-BX10-U SFP for single-fiber bidirectional applications. The 1000BASE-BX-D and 1000BASE-BX-U SFPs, compatible with the IEEE 802.3ah 1000BASE-BX10-D ...

1000BASE-BX10-D and 1000BASE-BX10-U SFP for single-fiber bidirectional ...

Not only does it use less power, but it also sends and receives data on just one fiber, cutting down on fiber costs and making deployment smoother. I tested its transmission quality after buying it, and it ...

The Cisco 1000Base-BX10-D Downstream Bidirectional Single Fiber Transceiver Module can be connected to a 1000BASE-BX10-U device with a single strand of standard SMF with an operating ...

This Gigabit Single-Mode Single-Fiber SC Fiber Media Converter (Pair) is a high-performance photoelectric conversion device. It uses single-fiber bidirectional transmission technology to achieve ...

TP-LINK's TL-SM321B-2 and TL-SM321A-2 is designed to work in a pair to create an on-site gigabit fiber communication up to 2km (2,000 meters). With one single-mode fiber, the pair of modules can ...
