

Fiber Optic Fusion Splicer Distribution Box

Our fiber optic splice enclosures are designed to protect and organize fiber splices in rack-mounted or wall-mounted installations. Made from durable aluminum or steel, these enclosures provide a secure ...

This fiber optic distribution box is able to hold up to 16 subscribers. It is used as a termination point for the feeder cable to connect with the drop cable in the FTTx network system. It integrates fiber ...

The FDB-48 Series 48-port Fiber Distribution Box is suitable for FTTH projects and can be used in corridors, basements, rooms, and on building exteriors. It has functions like mechanical splicing, ...

Fiber Instrument Sales has a wide variety of fiber optic splicing equipment such as fusion splicers from AFL, Sumitomo, FITELE, and FIS. FIS also splicing tools and accessories such as cleavers, thermal ...

Our 16 port fiber distribution box (FDB) or fiber distribution hub (FDH) features 2 fiber cable inlet ports and 16 drop cable outlet ports, turnable inner tray for easy fiber splices, excess cable routing and ...

This 4 strand optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal. It can effectively terminate, protect and manage ...

Designed without adapter slots, this enclosure provides a high-reliability, low-loss ...

FS offers passive optical components & termination equipment to meet flexible optical network needs by fiber signal attenuation, separation, termination, etc.

Unlike the single-core boxes, this fusion splicer box is built for splicing multiple-core fiber optic cables concurrently. This capability enables high-speed data transmission through a single cable, making it ...

Designed without adapter slots, this enclosure provides a high-reliability, low-loss solution for environments where permanent fusion splicing is preferred over plug-and-play connections. It ...

With the function of the mechanical splice, fusion splice, light splitting, and wiring distributions. It can accommodate 2pcs 1×8 PLC cassette splitter. The fiber access terminal box is with Anti-UV, Ultra ...
