

# Fiberglass cable tray with curved grooves

Our fiberglass cable tray gives you the load capacity of steel plus the inherent characteristics afforded by our Protrusion Technology: non-conductive, non-magnetic, and corrosion-resistant.

The table above compares the thermal contraction and expansion based on various differentials for steel, aluminum and fiberglass cable trays. The values shown represent the length of the cable trays ...

Rung spacing specified in the tray straight sections does not necessarily apply to fittings. Smooth radius fittings are compact and the curved rail shape is an aid for cable pulling. Factory engineering support ...

Tested for ABS, NEMA and IEC, B-Line series fiberglass cable tray is ideal for harsh, marine and caustic environments. Learn about its corrosion resistant properties.

SFSP-INTECH Fiberglass Reinforced Plastic Cable Management System is designed, manufactured, and tested to be installed in most harsh environmental conditions of onshore and offshore facilities ...

Made from the highest quality pultruded materials, our Fiber Reinforced Polymer (FRP) cable tray is extremely durable and resistant to chemical attack, with a proven record of performance in the most ...

We are dedicated to delivering high-quality fiberglass window profiles that meet or exceed international standards. Our products are tested for durability, thermal performance, and resistance to ...

MP Husky Fiberglass Cable Tray is available in both polyester and vinylester resin systems. They are manufactured to meet ASTM E-84, Class 1 Flame Rating and self-extinguishing requirements of ...

Discover lightweight FRP fiberglass cable trays with high strength, corrosion resistance & fireproof features. Ideal for industrial cable management systems.

Sturdy wire mesh cable tray system for data centers & commercial use. Supports 12A/12B loads. Includes prefab assemblies & ladder trays.
