

# Fiji Certified Access Switch 800G

Discover 800G Ethernet technology and FS 800G AI switches, delivering ultra-high bandwidth, low latency, and lossless performance for AI/ML clusters, HPC, and cloud data centers.

Cisco N9364E-SG2 switches introduce high-density 800G aggregation for the data center fabric. They also offer various lower port speeds and densities, including 400, 200, and 100 Gbps.

Now shipping to customers worldwide, this open network switch offers 64-port 800GbE interfaces in a 2RU fixed box, delivering high performance with complete L2 and L3 forwarding features for modern, ...

Our UfiSpace 800G networking solutions, featuring the standalone Tomahawk &#174; 5 Ethernet Switch Series and the Distributed Disaggregated Chassis (DDC) equipped with Jericho3 and Ramon3, are ...

Discover 800G Ethernet technology and FS 800G AI switches, delivering ultra-high bandwidth, low latency, and lossless performance for AI/ML ...

Common certification for a series or family of models is not granted. Each equipment type must be Type Approved.

Please choose from the categories below:

The S9321-64E OSFP is an 800G data center switch featuring 64 x 800GE ports, 51.2 Tbps capacity, and advanced traffic management, ideal for AI/ML workloads.

Choose from new price-performance options on merchant silicon in our 400G and 800G switches and routers to reach new benchmarks of performance and functionality.

WANVE provides end-to-end certification compliance for Electrical & Electronics in Fiji: regulatory interpretation, technical requirements, process guidance and solution generation -- one-stop market ...
