

# Gigabit Ring Network Fiber Optic Switch

VERSITRON manufactures a wide range of fiber optic switches that provide links for your 10Base, 100Base, 1000Base Gigabit, and 10 Gigabit networks simultaneously. Various port sizes are ...

Ideal for mission critical fiber optic ring networks, the TC3820 Redundant Ring Gigabit Ethernet Switch provides maximum reliability through its sophisticated redundant ring technology. If a fiber cable or ...

This switch is a next generation Layer 2 managed switch with 128Gbps switching capacity. It provides up to (24) dual speed fiber slots and (4) 10Gig aggregation ports, it's an ideal switch for fiber ...

Available with SNMP Management, the Model TC3820 1000Base-SX/LX Switch provides six 10/100M copper ports and two Gigabit fiber ports. It can be daisy-chained and supports distances between ...

It also supports 2 Gigabit dedicated SFP slots, providing flexible connection option with fiber optic link to meet various demands of long distance deployment. More importantly, compared with other ring ...

Gigabit sfp ring network transceivers can be configured in ring, chain and star topologies, suitable for various-sized plants; they are widely used in intelligent manufacturing and energy power sectors, ...

Discover fiber switches designed for reliable network connectivity. Browse 10G, 2.5G, and gigabit options to expand your bandwidth.

Learn how to design a fiber optic ring network with practical diagrams, topologies, and switch setup tips. Explore ring network switch options for industrial applications.

To improve the technology of Optical Fiber Ethernet with highly-flexible, highly-extendable and easy-to-install features, the IGS-20040MT offers up to 1Gbps data exchange speed via Optical Fiber ...

GAOTek ring network switch adopts industrial rail design, 16 GE + 4 OPTIC network switch is a new generation of multi-service access network management Gigabit redundant Ethernet switch, with ...

The TC3340 is a compact Gigabit Switch solution for both industrial automation and commercial networks because it offers a wide range of advanced networking features including Redundancy, ...
