Grounding Clip, Zinc-Plated, Spring-Steel, Colored Green Accommodates #12 and #14 Copper and #12 Aluminum Solid Conductors in Non-Metallic Sheathed Cable. Category: Ground Clips.

EPCO's Ground Clips are designed for fast, reliable grounding and bonding in metal electrical boxes, offering a labor-saving alternative to ground screws for a wide range of projects.

Ground Clips are intended to be pressed on the top edge of a box to hold a No. 10, 12, or 14 AWG copper or No. 10, or 12 AWG aluminum grounding conductor against the side wall.

They are intended to be installed on the top edge of a box to hold #10, #12 or #14 AWG copper wire. They can also be used to hold #10 or #12 AWG aluminum grounding conductors against the side wall.

MECCANIXITY ESD Grounding Cable Cord with Alligator Clip 180cm/70.87 Inch Long, Anti-Static Ground Wire Cable Clip for Eliminate Conductor Electrostatic, Pack of 3 (Black)
