

Guatemala Price Single Fiber Bidirectional 400G

A single mode fiber optic cable is a high-performance transmission medium designed to carry light signals over long distances with minimal signal loss. Widely used in telecommunications, data ...

Based on your fiber characteristics and link budget, the D7000 coherent solution offers outstanding reach -- up to 400 km for 400G coherent transmission and 700-800 km for 200G coherent ...

On the line side the module supports 100G, 200G, 300G, and 400G interfaces with different modulation formats and forward error correction (FEC) codes. Multiple 100G clients can be multiplexed onto a ...

In order to provide a communication system meeting the long-distance transmission of 20KM without modifying the existing optical fiber communication line, the embodiment of the application provides...

LINET CAJA DE DISTRIBUCION NAP ARMADA, 16 HILOS, INCLUYEC PLC 16 HILOS SC/APC, IP66

Our EDGEOPTIC BIDI-400G-QSFP-DD-150 is a multi-vendor compatible 400GBASE-SR4.2 BiDi QSFP-DD optical transceiver module designed for high-capacity 400 Gigabit Ethernet applications over ...

Cisco is now offering the new Cisco 400G Digital Coherent BiDi CFP2 capable of supporting single-fiber bidirectional coherent transmission. Cisco already offers a range of Digital Coherent CFP2 ...

The QSFP-40001-DR4 is a 400Gb/s Quad Small Form Factor Pluggable-double density (QSFP-DD) optical module designed for 500m reach over SMF optical communication applications.

The Vchung OSFP transceiver module is designed for use in 400 Gigabit Ethernet links over 2km single mode fiber with FEC. The module has 8 independent electrical input/output channels operating at ...

These modules are ideal for use in 25G Ethernet and CPRI applications, particularly within 5G mobile networks. At GigaTech, you can find a wide variety of BiDi transceivers that are designed to meet ...
