Precision

EverExceed smart Precision cabinet is designed and manufactured to meet the requirements of modern data center power distribution systems. It offers a wide ...

In addition to power management, the precision head cabinet also has the function of operation management and safety management, which improves the reliability of the entire distribution system ...

Provides intricate power insights with dual-level monitoring at both the input and individual outlet, bringing unparalleled control over your energy distribution.

EPM is a high-performance, highly reliable precision switchgear cabinet in accordance with GB7251.1 standard. Its capacity ranges from 20kW to 300kVA, and the product is certified by national ...

Explore how precision power distribution cabinets with intelligent monitoring transform data center power management--from rack-level control to power quality analysis and zero ground ...

This space-saving solution is easy to move and adapt to future reconfigurations of the data center, it offers superior power protection and monitoring, and the flexibility & scalability to match your actual ...

It is not just a distribution Cabinet, power inputs, outputs, power monitoring system as a whole set of integrated power distribution design, is future-oriented distribution system. In addition to distribution ...

The PDU offers superior power protection and monitoring, and the flexibility and scalability to match your actual power distribution requirements. Not only does it improve availability, it reduces the cost of ...

The precision power distribution cabinet is a smart cabinet that collects all energy data at the end of the data center room. High-precision measurement data is provided for the terminal energy monitoring ...

Increasing rack power density both in the data center and at the network edge means that reliable power distribution is crucial. Our innovative power distribution units and rack PDUs not only maintain power, ...

EverExceed smart Precision cabinet is designed and manufactured to meet the requirements of modern data center power distribution systems. It offers a wide range of cabinet structure. The cabinet ...
