

High-precision fiber optic fusion splicing equipment for rail transit

The M5 Fiber Optic Fusion Splicer is an intelligent, fully automatic fusion tool engineered for fast, accurate, and reliable splicing of SMF, MMF, DSF, and NZDSF fibers.

Precision Rated Optics - PRO - Fusion splicers are exceptional units specifically designed for fiber optic interested in the process of fusing fibers at the lowest loss levels obtainable.

Shop fiber fusion splicers designed for FTTH and telecom applications. Get reliable equipment with fast splicing times and comprehensive accessories included.

With products in over 130 countries, AFL specializes in fiber optic cable and hardware, transmission/compression and substation accessories, connectivity solutions, fusion splicers, and ...

AFL Fusion Splicers provide you with the precision and reliability you need to splice your fibers. We offer a wide range of fusion splicers to choose from, including benchtop fusion splicers, field fusion ...

Designed for telecom professionals, FTTH installers, and network engineers, this machine delivers ultra-fast splicing speeds (≤ 6 seconds) and low loss rates, ensuring reliable connections in any environment.

An expert resource for selecting the most reliable, accurate, and cost-effective fusion splicers in 2025.

We are renowned for innovative, high-quality fusion splicing equipment. Our splicers are used everywhere, from labs in the world's leading research institutes, to completing last mile FTTH ...

State-of-the-art fiber optic specialty fusion splicers and fusion splicing solutions from FITEL and 3SAE Technologies.

Fiber Optic Center has fiber optic splicing equipment, including splicers, cleavers, protection sleeves, mechanical splicing tools and more. We distribute fiber optic splicing equipment from Corning, AFL, ...
