

Huijue Fiber Optic Distribution Frame Straight-through

The optical distribution frame is with standard 19 inch size and it is properly designed to control the bend radius of the cable inside the enclosure to avoid extra optical loss.

Besides, we have a mass production factory of 50, 000 square meters in Jiangsu province, which is mainly for metal precise production, assembly of cabinets and optical fiber products.

Our company introduced advanced technology and equipment of overseas and gathered a large number of professional and management team. Our annual production capability is beyond two hundred ...

Covering specifications from 8-core to 48-core, the products are made of multiple materials such as SMC, metal, and plastic. Suitable for the construction of optical fiber access networks, they provide ...

Fiber Optic Distribution Frame (or shortened as ODF), is used to form and distribute the local backbone optical cable in the optical fiber communication system, to fit the requirements of the connection, ...

Adopts the international standard 19" frame, Fully-closed structure to ensure the fiber protection, and dust-proof. Electrolysis sheet/Cold-rolled steel frame, electrostatic spraying in the whole surface, nice ...

The frame design adopts a modular structure with complete accessories, which can be flexibly configured according to different user requirements for easy installation and capacity expansion.

Founded in 2000, Shanghai Huijue Network Communication Equipment CO., Ltd is a professional company integrates development, manufacturing and sale in one body.

Main products: Integrated Cabinet, Optical Fiber Joint Enclosure, Outdoor Cabinet, Telecommunication Shelter, Distribution Frame, Fiber Optical Cable Cross Cabine, Terminal Box
