

The EDS-510E Gigabit managed Ethernet switches are designed to meet rigorous mission-critical applications, such as factory automation, ITS, and process ...

Moxa's Layer 2 managed switches feature industrial-grade reliability, network redundancy, and security features based on the IEC 62443 standard.

Explore the features of the Moxa EDS-510E-3GTXSFP-T, an industrial Ethernet switch designed for high-bandwidth networking.

The Moxa EDS-510E Series 10-Port Managed Ethernet Switch is designed for mission-critical applications including factory automation, ITS and process control.

L2 switch EDS-510E-3GTX-SFP-T is one of the top models that refer to the ...

The EDS-510E Gigabit managed Ethernet switches are designed to meet rigorous mission-critical applications, such as factory automation, ITS, and process control. The 3 Gigabit Ethernet ports ...

EDS-510E-3GTXSFP-T - 7+3G-port Gigabit (GigE) managed Ethernet network switch - extended temperature version - ATEX compliant - MOXA (EDS-510E series) - with 7 x RJ45 copper connectors ...

Get official software, firmware, drivers, and support documentation for EDS-510E Series.

L2 switch EDS-510E-3GTX-SFP-T is one of the top models that refer to the innovative E series and provide a number of advantages. The device housing features 10 ports, including 3 universal Gigabit ...

Models with a wide operating temperature range of -40 to 75°C are also available, and the switches support advanced management and security features, making the EDS-516A switches suitable for ...

Industrial Switch EDS-510E
