

LC Interface Pigtail Testing Tool

All-in-one unit with easy-to-read LCD interface tests fiber optic cables for breaks, ...

The LC Extraction Tool, designed to allow simple removal of LC duplex, simplex and pigtail connectors.

Designed to help manipulating LC-style connectors in high-density termination fields, the tool can serve as an in-dispensable every-day instrument for installers, technicians, and system administrators.

With rechargeable battery and integrated display, FOCIS Flex enables untethered inspection of patchcord and panel-mounted connectors - without requiring an external display.

Delivery with SC/APC Female 2,5mm to LC/APC Male 1,25mm Adapter. There are no fusion joints in the center of the optical fiber, small in size, light in weight and easy to carry.

Each kit contains pin and socket polishing tools, jacket strippers, shears, scribes -- literally all the tools and supplies required for ongoing termination and test of fiber optic systems.

The LC Extraction Tool, designed to allow simple removal of LC ...

With the ever increasing density of today's active equipment and associated ancillary management we have developed the LC Extraction Tool, designed to allow simple removal of LC duplex, simplex and ...

All-in-one unit with easy-to-read LCD interface tests fiber optic cables for breaks, insertion loss and optical power loss. Essential for cable installers or anyone in telecom or LAN environments.

Designed for a wide range of single-mode applications, this sm fiber duplex LC loopback testing tool is manufactured with the highest quality Corning optical fiber and terminated with small form factor, ...

Explore fiber optic testers designed for LC and other universal interfaces. Find portable power meters, visual fault locators, and multi-function testing tools.

LANshack has everything you need for an installation, from fiber optic cables, pigtails, and test instruments to fusion splicers.
