

# Langzhong Optical Cable

This cable features a central PBT tube filled with thixotropic gel, housing up to 24 optical fibers. It is reinforced with fiberglass yarns and dry swelling material, wrapped in corrugated steel armor for ...

Cable containing up to 24 optical fibers in water blocked loose tube. Optical fibers reinforced with aramid yarns and sheathed in a flame retardant Low Smoke Zero Halogen compound.

Laser optimized multimode fiber (LOMMF) with duplex, small form factor (sff), 1.25mm ceramic ferrule, LC fiber cable connectors. Assembled with high bandwidth, Corning 50um multimode fiber jumper ...

Please make a selection above to download your spec sheet.

The structure of the flame-retardant optical cable is to insert single-mode or multi-mode optical fibers into a loose tube made of high-modulus plastic, and the tube is filled with a water-blocking compound.

These fiber optic patch cables feature LSZH (Low Smoke Zero Halogen) jackets along with LC style connectors. Our fiber optic cables are functionally tested to guarantee top performance upon delivery.

Also suitable for industrial applications with cable trays and spaces where robust mechanical durability are key attributes: industrial complexes, transportation systems, tunnel networks

Langzhi offers high-quality fiber optic patch cords, splitters, GPON, EPON ONU equipment, and tools, providing reliable solutions for diverse network needs.

Get the connectors you want: ST, SC, LC, and MT-RJ in 10 different combinations. Choose from 12 different colors. Select from 13 lengths ranging from 1 to 30 meters. Higher data aggregation in the ...
