Large Capacity Fiber Reinforcement Tray

Our Fiberglass Cable Tray gives you the load capacity of steel, plus the inherent characteristics afforded by Pultrusion Technology: non-conductive, non-magnetic, and corrosion-resistant.

Distributor of flame-resistant straight channel fiber cable trays. Available in 5 in. width. Suitable for data center, enterprise, central office, and mobile switching center applications. Serves ...

Discover CommScope fiber splice trays, fiber optic splice trays, and a convenient fiber splice organizer. Organize fiber connections with ease.

Designed to route and protect fiber optic and high-performance copper cabling to and from network cabinets, distribution frames, and other terminal devices.

FCT FRP Cable Trays are designed specifically for electrical and instrumentation installations, utilizing corrosion-resistant fiber reinforced plastic. These trays are engineered to achieve weight reduction ...

Fiber-reinforced polymer (FRP) cable trays offer lightweight, durable, and corrosion-resistant solutions for organizing electrical and data cabling in offices, data centers, and industrial environments. This ...

The 2521 splice inserts which must be purchased separately are easily added to secure splices into the trays. Fibers are routed into the trays using 2520 tubing that zips over the fibers. The tray has entry ...

The fiber optical MTP® splice tray for FHD® (FS High Density) series rack mount enclosure shall house and protect fiber optic splices, guarantee proper fiber cable management and bend radius control, ...

They are essential components in fiber optic enclosures and cabinets, providing a safe, secure and well-organized environment for splicing fiber optic cables. These trays are available in various sizes and ...

Fiber splice horizontal enclosure includes 6 trays and accommodates up to 144 fiber cables for outdoor use. Rated IP68 for protection from dust and water up to 1.5 m.
