

Cutting Edge Optonics is a vertically integrated manufacturer of laser diode bars, laser diode arrays, diode pumped laser modules, laser diode drivers, and complete diode pumped solid state laser ...

Interlock Systems Constant Power Mode Electrical Monitoring Outputs Low-Noise Operation Slow Start Feature and Turn-On Delay Wavelength Tuning Quasi-Continuous Wave Operation Short and Ultrashort Pulse Generation Computer Control They are specialized drivers for producing nanosecond or picosecond pulses, e.g. by gain switching. Here, it is particularly important to select a suitable laser diode and to properly adjust the parameters of the applied current pulses. See more on [rp-photonics](#)

```

View manufacturers of laser diode drivers for defense systems, supporting CW, pulsed, & modulated laser systems in EO/IR, LiDAR & ISR.

Laser Drivers are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many laser driver manufacturers including Analog Devices, MACOM, Texas ...

We specialize in high speed medium and high power drivers working in laser diode current stabilization mode. High reliability, low noise, compactness and simplicity makes our LD drivers stand out from ...

Low noise laser diode driver with modulation. Looking for custom products? Contact us. Ultra low noise current drivers in compact form factors for laser systems.

Laser diode drivers supply electronic current to laser diodes, with different requirements based on application and power level.

# Laser Diode Driver Manufacturer

A Laser Diode Driver is an electronic device that is designed to provide precise and stable electrical current to a laser diode. The leading manufacturers of Laser Diode Drivers are listed below. Narrow ...

High-power laser diode manufacturer specializing in laser assemblies in any combination of the light source, optics, cooling, and drivers with wavelengths from 375 nm to 12 microns.

This section provides an overview for laser drivers as well as their applications and principles. Also, please take a look at the list of 32 laser driver manufacturers and their company rankings.

We work only with trusted and verified suppliers. We make sure that your purchase is protected, safe, and that you receive the high quality products you order and are fully satisfied.
