

Latvian supplier of compatible 400QSFP-DD optical modules

Smartoptics QSFP-DD transceivers provide cost-efficient 400G and 800G optical networking. QSFP-DD (Quad Small Form-Factor Pluggable Double Density) transceivers double the number of high-speed ...

To accommodate an increasing spectrum of applications, Arista offers a wide choice of OSFP, QSFP-DD, QSFP, SFP, SFP-DD and DSFP transceivers and cables that comply with industry standards, ...

FIBERTOP Optical Module Factory QSFP-DD 400G supports 400Gbps data rates, provides reliable high-bandwidth connections for high-density data centers and backbone networks, supports the ...

FS provides an expanding portfolio of 400G OSFP/QSFP112/QSFP-DD solutions featuring high-performance, high-bandwidth, and backward compatibility. The 400G transceiver modules are ideal ...

The Lumentum 400ZR module in a QSFP-DD form factor is designed for use by hyperscale data center operators and peering networks to provide high bandwidth interconnections in an industry standard, ...

NADDOD Cisco QDD-400G-FR4-S Compatible 400GBASE-FR4 transceiver is mainly used for interconnecting data centers, 400G Ethernet. Supports link lengths up to 2km via duplex LC connectors.

The Cisco's family of QSFP-DD modules provide the industry's highest bandwidth density while leveraging the backward compatibility to lower-speed QSFP pluggable modules and cables.

Unlock next-level performance with 400G QSFP-DD modules, engineered for high-density, high-speed data transmission in modern data centers. With double-density architecture, QSFP-DD supports ...

All Juniper qualified 400G optics are compliant with key industry standards and specifications for seamless interoperability in multivendor environments.

Compatible with Ethernet and InfiniBand technologies, the QSFP-DD 400G delivers exceptional performance and increased efficiency, making it the ideal choice for high-speed and high-capacity ...

Latvian supplier of compatible 400QSFP-DD optical modules
