

# Machines for making beam splitters

With its advanced plasma technology and CNC capabilities, this beam line machine can handle a wide range of tasks, including cutting and drilling I-beams, coping beams, and other structural steel

Our beamsplitters are manufactured from a wide variety of SCHOTT, Ohara, and CDGM materials. Whether you require several beamsplitters for prototyping, a few dozen for pre-production, or large ...

For fabricators looking to split Tees, we offer the simplest machine for quick work of splitting a beam. The BSP-2000 beamsplitter is a portable unit that rides along the beam flanges without the use of a ...

Our supplier LightMachinery is extremely experienced with specifying, designing and manufacturing custom beamsplitters using the company's patented fluid jet polishing (FJP) technology that allows ...

Two big names, Peddinghaus and Ocean Machinery, have thrown their hats in the ring with machines that have changed the game in beam processing. This article dives deeper into their offerings, eyeing ...

PDM Steel cambers structural steel beams using a heavy-duty lateral hydraulic press to gently alter the steel beam into its desired shape. With a capacity to camber steel beams and other structural steel ...

The company produces various laser optical components including polarizers, beam splitters, mirrors, filters, and lenses. It also offers custom optics tailored to client specifications and use cases.

At its essence, a beam splitter is a device that can direct light into two unique paths. Most beam splitters are fabricated from glass cubes. When a light beam comes into contact with these...

In addition to standardized, stocked separators, we primarily develop and produce unusual beam splitters, which are created, for example, by joining structured individual components. Our specialty ...

Manufacturers of structural steel fabrication machinery for the steel fabrication industry. Latest Technology. Best Support. Strongest Machines.
