

Manufacturer of Flame-Retardant Optical Cables for Smart Buildings

FireTuf fibre optic cables are manufactured by Prysmian Draka. Offered in OM1, OM3 and OM4 multimode and OS2 singlemode, in 4, 8, 12 or 24 core fibre configurations.

High-capacity flame-retardant ribbon cable featuring intermittently bonded fibres and LSZH jacket. Engineered for dense fibre counts in data centres and core networks.

Discover Anhui Lasun Optic-Electric Co.,Ltd."s latest B1-grade flame-retardant network cables, designed to exceed safety standards in data centers, high-rise buildings, and densely ...

APAR offers 2F to 512 F optical fibre cables, in armoured and unarmoured designs. The cable ensures operation for 3 hours in fires up to 750°C. The cable is halogen-free and flame retardant, to protect ...

Optimize your indoor connectivity with fire-resistant, flexible fiber cables engineered for secure data flow in homes, offices, and smart infrastructures.

In this guide, we list the Top 5 Global Manufacturers who set the standard for fire safety. We will also clarify the confusing jargon (OFNR vs. OFNP vs. IEC 60331) and show you how to source safety ...

An isolated fire can develop into a large fire due to the rapid flame spread along cable communications. Our InFire Rated cables are designed to mitigate that risk and increase safety along the cables.

The specially formulated, flame-retardant outer cable jacket and rugged construction of these cables facilitates routing through riser shafts and long horizontal runs inside buildings.

Find your flame-retardant optical cable easily amongst the 51 products from the leading brands (LEMO, LAPP, SAB, ...) on DirectIndustry, the industry specialist for your professional purchases.

Our fire-resistant fiber optic cables ensure data continuity in critical infrastructure worldwide, helping integrators, contractors, and telecom operators meet the highest CPR and IEC standards.
