

Multi-channel fiber optic module

Fibre channel transceivers are suitable for Fiber Channel storage networks and Ethernet applications. The characteristics of small size and low power consumption meet the needs of fast and lossless ...

The Samtec 25/28 Gbps FireFly(TM) FMC+(TM) Module supports Data Center, High Performance Computing, and FPGA-to-FPGA protocols including Ethernet, InfiniBand(TM), Fibre Channel, and ...

Description: The Industry Standard for Fiber Optics Meets or exceeds MIL-DTL-38999 Series III requirements EMI Shielding-solid metal-to-metal coupling, grounding fingers, electroless nickel ...

Mouser offers inventory, pricing, & datasheets for Ethernet, Fibre Channel Multimode Fiber Optic Transmitters, Receivers, Transceivers.

Engineered to meet IEEE 802.3 and MSA standards, our module provide excellent signal integrity, low power consumption, and advanced digital diagnostic monitoring (DDM/DOM). LINK-PP SFP module ...

Explore CommScope's efficient and scalable fiber splice panels designed for seamless connectivity. Accommodating LC, SC, and MTP/MPO connectors, these panels are ideal for data centers, ...

The 109 connector line meets or exceeds the pertinent requirements of SMPTE standard 358M on harsh environment multi-channel fiber optic connectors suitable for deployment in demanding outdoor ...

Explore the best multi-channel fiber connectors for your application, ensuring optimal performance, reliability and maintenance ease in harsh environments.

With broad interoperability and multi-protocol support, Smartoptics SFP+ transceivers ensure seamless integration into existing networking infrastructure, enabling scalable and cost-efficient connectivity.

Shop DigiKey's large in-stock selection of Fiber Optic Transceiver Modules. View inventory, pricing and order now for same day shipping!
