

Multi-device surge protection distribution box

Eaton manufactures a comprehensive range of surge protection devices for high energy surges and transient disturbances, designed to meet the needs of virtually any environment or application.

Surge protection and power conditioning outside of a rack. Its compact design easily fits along, behind, or near equipment, takes up minimal space, and is perfect for AV, surveillance, and monitoring systems.

The Lightning Protection Box ensures multi-level surge protection and simplifies system wiring, making it a key component in modern lightning protection systems. Applicable to low-voltage power supply and ...

Pyle Pro PCO860 Power Supply Surge Protector/Power Conditioner has a built-in 15-amp circuit breaker that prevents circuit overloads, detects dangerous voltage irregularities, shutting off AC input when ...

Browse surge protection products for industrial or residential applications, including regulators and voltage monitoring devices. Block the shock caused by surges at the load center with whole home ...

Discover the different types of surge protectors (SPD) used in distribution board panels. Learn how to select the right surge protector based on protection level, and rated discharge current to safeguard ...

The Leviton 52000 SPD Panel should be mounted as close as possible to the circuit breaker panel to provide maximum surge protection to other branches fed by other circuit breakers within the circuit ...

Shop DigiKey's large in-stock selection of Power Distribution, Surge Protectors. View inventory, pricing and order now for same day shipping!

About CSQ Electric CSQ Electric is a global leader specializing in low-voltage power distribution and control systems. Their product portfolio includes automatic transfer switches, molded case circuit ...

Surge Protective Devices are designed to protect against transient surge conditions. Large single surge events, such as lightning, can reach hundreds of thousands of volts and can cause immediate or ...
