AFL- ADSS ® (All-Dielectric Self-Supporting) cable is ideal for installation in distribution as well as transmission environments, even when live-line installations are required.

In the Nitrotel ADSS cable, single-mode/multimode fibers are positioned in the loose tubes, which are made of high modulus plastic materials, while the loose tubes strand together around non-metallic ...

AFL-ADSS® (All-Dielectric Self-Supporting) cable is ideal for installation in distribution as well as transmission environments, even when live-line installations are required.

As its name indicates, there is no support or messenger wire required, so installation is achieved in a single pass, making ADSS an economical and simple means of building a fiber optic network.

ADSS cables feature fiber counts up to 576, a dry core design and the high-tension strength capability required for installation in the toughest environmental and electrical conditions.

No solo se trata de una excelente idea, se trata de llevarla a la accion. #fiberoptic #adss #asu #factory #shenzhen #believe #doit Angel Jurado Amauri Padilla Wiston Morales Carcamo Marlon Javier...
