Available in a range of cable laying depths and widths, we will have a solution that works for your project. Stocked in a range of Pre-Galv and Hot Dip Galv finishes, FDG Cable Support Products can ...

Laying cabling in a neat and controlled manner, observing separation requirements, allows for inspections and reduces the need for individual cable trays for each classification.

If you are going to be in or near the CPZ, refer to charts to ensure you know the exact location of the CPZ. The relevant charts include NZ 463, NZ 46, NZ 62, NZ 6212 and NZ 615. Simply catching a ...

Steel & Tube offer a full range of cable trays and cable ladders suitable for all cable containment, and additionally can provide full take-offs from plans through to a complete quotation.

“The ministry is actively exploring how monitoring and protection could be extended to all critical underwater infrastructure across New Zealand,” it said in a short statement on Thursday.

Cables were damaged in the Baltic Sea last year, amid a series of cable or pipe outages, and authorities voiced fears a Chinese ship dragged its anchor over them deliberately.
