

Optical Power Meter LC Dual-Core

Full-featured duplex and multi-fiber power meter and light source with the industry's fastest test speeds. Tier-1 duplex and multi-fiber certification with loss, polarity, and length measurement and on-board ...

Our handheld optical power and energy meters are plug and play compatible with our wide range of calibrated optical sensors for the highly accurate and repeatable optical measurements required in ...

I have purchased 5 of these portable light meters for my Field Services Team in Northern Illinois. We travel daily to customer locations and troubleshoot network connections.

The UC8202 Dual channel optical power meter offer superior performance for the test of DWDM components, AWG, WSS, OPM, PLC components, optical amplifiers, transceiver/receiver and other ...

Designed for the real world: AFL's power meters are designed to meet the demands of the outside plant environment. They withstand the one-meter drop test and have splash resistant controls that are ...

Choose the optical power meter you need to enable centralized control, flexible connectivity, and scalable measurement capability for optical component development or production test. Choose one ...

Tier-1 certification kit with power meter and light source, compatible with multiple duplex and multi-fiber connectors up to 24 fibers. Measures loss, length, and polarity in just 1 second, as per certification ...

The Tempo Communications fiber optic sources are available in dual and triple wavelength lasers and a dual wavelength LED. Accurate insertion loss measurements are possible when used in conjunction ...

The AQ23212A is a high-performance, single-channel optical power meter module equipped with an optical power meter and analog output. | Yokogawa Test & Measurement Corporation
