

Seismic-resistant cable trays in Haiti

The meaning of SEISMIC is of, subject to, or caused by an earthquake; also : of or relating to an earth vibration caused by something else (such as an explosion or the impact of a meteorite).

Seismic means caused by or relating to an earthquake. Earthquakes produce two types of seismic waves.

1. Of, subject to, or caused by an earthquake or earth vibration. 2. Earthshaking: an issue of seismic proportions and ramifications.

The colors in the maps denote "seismic design categories" (SDCs), which reflect the likelihood of experiencing earthquake shaking of various intensities. (Building design and ...
