

# Senegal Cold Aisle 1U

The HotLok™ Blanking Panel is a snap-in blanking panel that seals the rack 29% better than the nearest competitor. The state-of-the-art technology, designed for both 1U and 2U openings, controls airflow ...

AKCP provides blanking panels that can be used to fill these 1U or 2U gaps you may have in your cabinet. They aid in sealing and containing the rack, preventing the hot/cold air mix that can so ...

As an alternative to blanking panels, 1U Brush Guard Panels allow pass through of cables between the front and rear of a rack or cabinet while still providing thermal protection to maintain hot aisle/cold ...

The state-of-the-art technology, designed for both 1U and 2U openings, controls airflow for optimized cooling effectiveness. HotLok™ Blanking Panel with Temperature Strip is Upsite's latest green ...

Improves equipment efficiency by providing network equipment with the same cold aisle temperature as other devices in the rack. Decreases wrap around hot airflow from the hot aisle to the cold aisle due ...

SmartRack™ SR1UBRUSH is a 1U cable pass-through panel with brush strip. The ...

SmartRack™ SR1UBRUSH is a 1U cable pass-through panel with brush strip. The brush strip blocks unwanted airflow inside rack enclosures and server cabinets. The SR1UBRUSH improves cooling ...

Find out how to improve your data center infrastructure efficiency, using the cold aisle containment or hot aisle containment solutions from Vertiv.

Its integrated brush strip allows cables to pass through while segregating cold aisle from the hot aisle, helping to improve cooling efficiency and reduce energy costs.

The HotLok™ Blanking Panel reduces hot spots and bypass airflow by preventing equipment exhaust air or hot aisle air from migrating to the conditioned air intake stream at the front of the cabinet.
