

Syrian Optical Core Router 40G

It's the go-to solution for long-range 40G optical transmission, connecting data centers, enabling metro network access, and facilitating enterprise campus links.

The 40G QSFP optical module is a compact hot-swappable light module with four transmission channels, each with a data rate of 10Gbps, and is compliant with sCSI, 40G Ethernet, 20G/40G ...

FS 40G QSFP+ optical transceiver module solutions offer a full range of QSFP+ modules from 150m to 80km reach, and used for high-density switching, routing and data center applications.

This article will describe what the QSFP-40G-SR-BD is and will also detail the benefits of this module and how it works. It will also explain whether you should choose QSFP-SR4-40G or ...

40G QSFP+ BIDI optical transceiver module is a pluggable optical transceiver with a duplex LC connector interface for short-reach data communication and interconnect applications using Multi ...

Designed for multimode fiber systems, it offers speeds of up to 40 Gbps; the "SR4" label indicates that it is ideal for shorter links. This module typically operates at an 850 nanometer (nm) wavelength and ...

The series of product adopts LC or MTP/MPO connector and operates over Single Mode or Multimode optical fiber. They can be used for connections from 150m up to 40km and are suitable for 40G ...

T1-QSFP-40G-SR-BD is a four-channel, pluggable, LC Duplex, fiber-optic QSFP+ transceiver for 40 Gigabit Ethernet applications. It is a high-performance module for short-range duplex data ...

Supporting 40km transmission over single-mode fiber with 4 CWDM wavelengths (1271/1291/1311/1331nm), this high-performance module delivers impressive 19 dB link budget at ...

The module converts 4 input channels (ch) of 10Gb/s electrical data to 4 CWDM optical signals and multiplexes them into a single channel for 40Gb/s optical transmission.
