

Taiwan detects underground cables and fiber optic cables

Taiwan has intensified patrols around the 24 undersea cables that connect it with the global internet. For the most efficient use of Taiwan's limited coast guard resources, it is paying...

Experts warn that the cables serving Taiwan and its high-tech economy are vulnerable not just to wear-and-tear and accidents, but sabotage. In early 2025, a Chinese cargo ship was ...

When a Taiwanese telecoms company detected that an international undersea cable was damaged earlier this month, it worked to divert internet traffic from the broken line to keep customers...

Taiwanese officials say they will investigate a potential "gray zone" action by China after an undersea cable was severed on Tuesday.

Taipei has accused Beijing of sabotaging its cables, describing it as a "grey zone" tactic to pressure the self-ruled island, which China claims as its territory.

TAIPEI--Taiwan detained a cargo ship and its eight Chinese crew members after an undersea fiber-optic cable was severed, in a stepped-up effort to police such incidents, which are ...

The main point: Taiwan is facing an intentional and sustained campaign of undersea cable sabotage by China--part of Beijing's broader campaign to undermine Taiwan's sovereignty through ...

Taiwan has detained a Togo-flagged vessel and its Chinese crew members on suspicion of sabotage after an undersea communications cable was cut. Newsweek reached out to Taiwan's ...

Taiwan intensified its response to cable incidents following suspected sabotage in the Baltic Sea after Russia's 2022 invasion of Ukraine. There are now 24-hour patrols near TP3, and an ...

In November, two fiber-optic cables under the Baltic Sea were severed, and countries in that region have been investigating a Chinese-flagged commercial ship that may have been involved.
