

Tension-resistant fiber optic connectors

FLX Series fiber connectors are rugged, waterproof, and offer quick, tool-free termination. Ideal for FTTH, data center, military, and industrial networks.

There are also military-spec fiber-optic connectors (such as expanded-beam or MIL-ST connectors) designed to withstand shock, vibration, and submersion. Plus, fiberglass does not ...

Foss offers ruggedized fiber optic connectors designed for reliability in extreme conditions. Ideal for industrial, military, offshore, and outdoor applications requiring dustproof, waterproof, and vibration ...

Discover the common fiber connector types. Learn the differences, uses, and best practices for SC, LC, ST, FC, MPO/MTP connectors.

As a leading supplier of advanced fiber optic components, Molex has an extensive product offering that includes a full range of optical solutions from connectors, adapters and cables to backplanes and ...

Whether natural or manmade, cataclysmic or catastrophic, rugged and unforgiving environments call for the use of high-performance fiber optic connectors. Appropriate connector selection is essential to ...

The connectors use a proprietary physical locking mechanism to prevent unauthorized access or changes to ports. Once the connector is inserted into the port, it can only be removed with a ...

Our offering includes Ethernet and other fast communications protocols with the capacity to handle next-generation 40G and 100G when you are ready without the severe distance limitations of copper ...

US Conec's MMC connector is a Very Small Form Factor (VSFF) multi-fiber optical connector designed for termination of single-mode and multi-mode fiber cables up to 2.5 mm (nominal) in outside diameter.

Take fiber optics onto the field without any compromise on sealing, cleaning and performances. Tested for harsh and extreme environments.
