

The 1RU system provides a suitable boundary condition to support air-cooled switch applications as well as applications with alternative cooling techniques.

At OFC2025, experiments were performed using Celestica's DS5000 switch configured with loopback links to establish various network scenarios. In one image, the upper portion of the ...

At OFC2025, experiments were performed using Celestica's DS5000 switch configured with loopback links to establish various network scenarios. In ...

The design accommodates up to 16 2U switch blades with tool-less installation, tightly located liquid quick disconnects, and generous space for cable ...

Arista Networks shared some of its plans to deliver liquid-cooled switches and racks that can significantly reduce power consumption in enterprise AI networks.

Arista Networks has recently announced plans to implement liquid-cooled switches and racks designed to significantly reduce power consumption in enterprise AI networks.

Features a live demonstration of a prototype liquid cooled switch that contains liquid cooled eXtra Dense Pluggable Optics XPO modules. It also showcases modules, connectors and components from ...

Networking firm Arista is developing liquid-cooled switches and racks. As reported by NetworkWorld and Converge Digest, the company outlined its plans at the recent Hot Interconnects ...

By combining a dual-paddle mechanical architecture, integrated liquid-cooling cold plate, clean linear electrical channel, and high-voltage power delivery, XPO dramatically increases optical density while ...

The design accommodates up to 16 2U switch blades with tool-less installation, tightly located liquid quick disconnects, and generous space for cable management. Removing fans in liquid ...

Removing fans in liquid-cooled switches can reportedly save 5-10 percent of power, reduce vibration, and improve reliability. "In conclusion, AI data centers need liquid-cooled switches.

Take steps now to modernize your facility and thermal management strategies for tomorrow's liquid-cooled switches. Meet with your Cisco team or partner to discuss how to design, ...
