

Unicom Fiber Optic Cable Function

UNICOM UC-FBR-LO Cables are designed for duct, underground and tunnel installations. The loose tube cable construction places varying number of fibers in one buffer tube. The loose tube design ...

Corning invented "no-epoxy/no-polish" (NENP) fiber optic connector mechanical splice technology. The UniCam connector remains the most widely deployed NENP connector available because it's fast, ...

Fiber Port: This port is for the 100Base-FX connection. Unicom provides three different styles of fiber connectors (MT-RJ/SC/ST, Multi-Mode or SC, Single-mode).

The designed capacity of 8 pairs of optical fibers exceeds 160Tbit/s, which can effectively improve the communication capacity and channel diversification level between major information ...

The UniCam Connector remains the most widely deployed NENP connector available, because it's fast, it's easy and it's built on Corning's unparalleled fiber ...

Installing fiber optic is made fast and easy with UniCam® connectors. These technician-friendly fiber optic connectors install easily in just a few steps, with optical performance guaranteed.

UniCam® connectors make installation quick and easy, with guaranteed optical performance thanks to Corning's pioneering "no-epoxy/no-polish" technology.

Corning's UniCam fibre optic connectors make the installation of fibre optic connectors fast and easy. The technician-friendly fibre optic connectors install in just a few steps, for best-in-class optical ...

UniCam® connectors are becoming very popular, simplifying the termination of fiber connectors. When installed correctly, UniCam connectors can produce mated losses as low as 0.2 dB for the LC UniCam.

With 2500 Volt optical Isolation, the unit protects communication busses from destructive high powered surges and transients often found in utility substations and critical industrial applications.

The Unicom-2500 automatically controls this operation. It only needs the Baud Rate to determine the turnaround time from transmit to receive, therefore the Baud Rate selection switch must be in the ...

Corning® UniCam® connectors offer high optical performance in a fast, easy field-termination solution--ideal for fiber-to-the-workstation setups where time matters. Using precision mechanical ...
