

Vanuatu 780nm Laser Diode Module

These fiber-coupled 780nm laser diode is offered as stock items or associated with a CW or Pulsed Laser Diode Driver. It is compatible ...

They are an ideal replacement for a helium-neon laser in many applications and offer the benefits of superior durability, small size, and a range of wavelengths and powers. Elliptical output beams are ...

Shop 780nm and 785nm Laser Diodes from ALL TOP BRANDS, Selection Guide for Raman Spectroscopy Lasers

ROHM's 780nm high-speed laser diodes are widely used primarily as light sources for laser printers. They are also ideal for use as a general laser light source in sensor application.

The PL-DFB-780-A-A81 780nm DFB laser diode module made by LD-PD is a cost effective, highly coherent laser source.

These fiber-coupled 780nm laser diode is offered as stock items or associated with a CW or Pulsed Laser Diode Driver. It is compatible with our ultra-low noise or high speed nanosecond pulsed drivers.

Mouser offers inventory, pricing, & datasheets for 780 nm Laser Diodes.

We have been offering these high-quality laser diodes for over 25 years. The performance, reliability, and lifetimes are time tested, and if for some reason there is an issue, we will make it right.

Low cost, smallest size diode laser module featuring metal housing with fixfocus acrylic collimating lens for excellent beam quality. Integrated driving electronics with surge current protection.

780nm 5~10mW laser diodes, Arima Lasers, a professional manufacturer of laser diodes

At booth #5239, the company will present optical semiconductor solutions for high-speed data transmission and optical interconnect applications, including a 100 GHz comb laser, high-efficiency ...
