

# Vertical Fan Distribution Box

The Price Fan Column is a vertical fan unit designed to discharge into a raised floor plenum, ideal for flexibility and optimal space utilization.

These units feature a belt-driven fan and are available in horizontal, vertical, and reduced footprint vertical designs. Our products feature a patented multi-port, center-averaging airflow sensor for quiet, ...

Designed as a modular unit with integral risers to allow units to be stacked one on top of the other in a vertical column rising floor to floor up the building. This allows the use of one set of common risers, ...

The FS fan-coil unit offers a direct-drive fan with 3-speed PSC or ECM, or proportional ECM. Blower design is optimized for cabinet airflow and sound performance. Enhanced sound levels are achieved ...

Experience a new standard of ventilation with AirFixture's cutting-edge ERV and HRV fan boxes. Specially designed for high-rise residential environments, these fan boxes provide unparalleled ...

Check out our Vertical Console Fan Coil units from Whalen, an HVAC and fan coil pioneer.

Aluminum modulinear slot return diffuser, 3/4" slot for narrow tee. Aluminum modulinear slot supply lay-in insulated diffuser, 1/2" slot. Steel perforated supply diffuser with neck-mounted curved blade ...

Like all ENVIRO-TEC units, the vertical high-rise fan coil can be customized to your exact needs. And we ship it to you fully assembled to make installation a breeze. The units are stress tested to ensure ...

The Air Excellent DB824 is designed to radially distribute air from a ventilation unit, minimizing system pressure drop, fan energy use, and sound levels. It is compatible with Aerfoam insulated ducts and ...

We bring over 50 years in the air distribution industry, manufacturing and providing performance-guaranteed energy-efficient air distribution and management products, including fan coil units, air ...
