

# What is an ATR distribution box

AMC channel airlift consists of distribution or contingency channels and must be the primary means by which air eligible cargo, passenger, and aeromedical is transported to locations supported by the ...

The Air Transportation Rack (ATR) is the de-facto standard form factor for aircraft board electronic equipment since more than 50 years.

An Air Transport Rack (ATR) chassis is a rugged enclosure designed to house and protect electronic equipment, typically including communications and navigation systems, computing ...

Sizes from 1/2 ATR to 3/4 ATR are available with various backplane slot counts for CompactPCI, VME64x, OpenVPX (VITA 46, VITA 48, VPX-REDI, or custom designs. The ATR chassis are ...

Forced Air Cooled ATR Enclosure INC 404A and ARINC 600 standards. They come in a wide range of sizes, starting with a baseline "full ATR" width of 10.12", then going down to 1/2 an 1/4 ATR and up to ...

SIP's convection, conduction and Hybrid cooled ATR enclosures support a wide range of rugged Airborne and Mobile deployed applications. SIP ATR enclosures offer a standardized, cost effective ...

Even though these ARINC-standard enclosures vary in size, shape and function, they all share certain standard dimensions, most notably width (1/4 thru 1 ATR) and length, that make them an ATR case.

Usually, ATR is made of stamped aluminum plates and milled or brazed aluminum plates. The detachable front panel allows for I/O customization to meet specific application requirements and ...

Sizes from 1/2 ATR to 3/4 ATR are available with various backplane slot counts for CompactPCI, VME64x, OpenVPX (VITA 46, VITA 48, VPX-REDI, or custom ...

Elma Air Transport Rack (ATR) enclosures offer a standardized, cost effective solution for VME, VME64x, CompactPCI, VXS, VPX and Small Form Factor (SFF) based applications.

The most common image of avionics is the familiar "black box," more formally known as an LRU. Every digital avionics system usually ends up packaged in one or more LRUs. Descriptions of standardized ...
