

They can be assembled into a complete set of distribution boxes as line overload and short circuit protection, and can be used for temporary power distribution.

Leading electrical distribution box manufacturer in China. Reliable power distribution boards for industrial and commercial systems with OEM support.

XXM low-voltage lighting distribution box is suitable for single-phase and three-phase circuits with frequency of 50Hz, rated voltage below 400V, and load current not more than 100A.

XM Cabinet is widely used in lighting distribution systems of power station, transformer station, factory, mine, hotels, apartment, buildings, port, railway station, airport, warehouse, hotels etc.

XXM type distribution box is suitable for terminal distribution box system, and its cabinet body is manufactured by full CNC assembly process, with beautiful appearance and high protection level; It ...

With a simple structure, clear labeling, and easy access, the distribution box ensures safe operation, quick maintenance, and reliable protection for low-voltage electrical systems.

This series of products is a terminal combination electrical distribution box with leakage, overload and short-circuit protection functions.

This comprehensive guide delves into the features, benefits, and practical applications of XM Low Voltage Lighting Distribution Boxes, illuminating their role in creating streamlined and ...

Founded in 1995, and re-organised in 2009, Dongguan Aosen Electrical Equipment Co., Ltd. is a Hi-Tech enterprise headquartered in Dongguan City, Guangdong Province, mainland China, which ...

The XXM series lighting and power control distribution boxes are available in three variants: universal type, outdoor type, and transparent window type. They can be designed for either surface-mounted ...
